TIAA Retirement Plan - Online Enrollment Instructions

Before you get started:

TIAA has provided a few tools and videos to help you with your enrollment process. The first video, "Retirement Plan Enrollment", shows you what to expect from the online enrollment tool and an overview of how the enrollment process is carried out.

<https://www.tiaa.org/public/offer/products/retirement-plans/employer-sponsored-retirement-plans/enroll-in-retirement-plan>

Another important tool is found in the "Asset Allocation Evaluator". This tool helps users determine appropriate investment risks. This tool is especially helpful for people who have never invested before and might not be sure what their investment comfort-level is.

Take advantage of time and compounding
The sooner you enroll and contribute, the more you can potentially save. See how with the [Retirement Advisor](#).

Unsure about how to invest?
"I was feeling very uncertain about investing but working with TIAA helped me envision my retirement goals and pursue my dreams with confidence." *
Mary, 35, French Professor [LEARN MORE](#) ▶
* Client experiences will vary and are not guaranteed.

- When registering for access, you will need your social security number, date of birth and the employer’s access code, 314584. In addition, you will want to make sure you have the personal information (SSN and DOB) for your beneficiaries as well. The website will walk you through the enrollment process from here.
